

I am deeply grateful to this Country for the asylum from political persecution that I was subjected to. Current circumstances force me to ask for investigation and protection from what I and my parents strongly suspect is a targeted application of biological/chemical poisoning substances in order to cause my disablement and possibly physical elimination.

Should you need more information, I am fully available to provide more details or answer questions you might have. I can be reached at the provided above address and telephone number.

Sincerely,

Sergei Vadimovich Baranov
