But that was MKULTRA. We're free TODAY, aren't we?

Increasing numbers of citizens are reporting what could be called "social control", (also known as "prison without bars",) and is in fact a combination of stalking and electronic harassment by groups formed for "causes", in which the cause is not the main point. The main point is the 24/7 surveillance and harassment of targets designated by group leaders who are always "from somewhere else" and whose backgrounds cannot be independently verified.

The book, [Terrorist Stalking in America](#), by David Lawson, describes these "cause stalking" groups very accurately.

A peek at research which led to these advanced electronic weapons can be seen by reading the book "[Psychic Discoveries](#)" by Sheila Ostrander and Lynn Schroeder.

A survey of 12,000 North Americans in April 2002 suggested that a possible one percent (3 million) people have been brought under this silent, covert program of oppression and ruination of life. Our experience is that it can take time, in some cases years, before the targets of this program realize it is more than just "bad luck".

These formerly FBI-style [COINTELPRO](#) crimes are currently perpetrated along with constant psycho-electronic harassment of citizens in their homes and communities.

Current day social control programs are made possible by the ability to recruit people who are willing to inflict pain on others, well documented by looking up the famous [Milgram experiments](#).

For those who are unable to believe that large scale human rights atrocities can occur in "democratic countries" yet not appear in the media, consider the outrageous, current-day [epidemic of pedophilia](#). Cover is provided by pedophiles occupying positions high up on the authority scale, who lead double lives, and make sure the issue stays out of public view. The main techniques used by the controllers are [reportedly](#):

.....
Official "investigations" which don't ever seem to end, and with no defined purpose, and where the experiment subject is unaware of the investigation

Rumours of illegal and immoral behavior spread about the experiment subject

"Street theater" and neighbor "skits" designed to keep the experiment subject uncomfortable and isolated for years; often, whenever subject moves, new neighbors are moved in soon after (performed by grossly misinformed **local vigilantes**)

Sabotage of personal possessions and work at the experiment subject's home and place of employment.

An anonymous letter from someone claiming to be a PERPETRATOR in this covert program stated that he was recruited by being told he was participating in "criminal rehabilitation", in spite of the fact that overwhelmingly, victims of this program do not have criminal records. Information from a remote viewer has confirmed that "criminal rehabilitation" is a common cover story used to get local people to cooperate. Here is a list of common **excuses** used by human beings to justify this life long torture of innocent fellow human beings.

Cover is being provided by official denial and ridicule, and psychiatrist assist, usually being unaware of even the well-known **MKULTRA** atrocities. Once designated as a target, CONTROL is exercised over these facets of the experiment subject's life:

- who your friends are, and in many cases whether you will have anfriends at all

- how your relations with family will go

- how your relationships with business associates go

- what sort of jobs you will be allowed to hold, regardless of your qualifications, and for how long, and what the quality of your work will be

- how your health will fare, and in many cases if you will even be allowed good health

- whether or not you will be able to enjoy any of life's pleasures

- whether or not you will have any privacy at all

- how well you will be treated in stores and other places of public service

- how well your appliances will work and how long they will work without breakdowns

- how much sleep you will be allowed

- how long you, your children, and your pets will have between occurrences of bodily pain, fatigue, sleep deprivation

If you feel that citizens deserve to control the above areas of their own lives, please stay a while and read the materials on this site.

But that was MKULTRA. We're free TODAY, aren't we?

Increasing numbers of citizens are reporting what could be called "social control" or "vigilante gang stalking", (also known as "prison without bars".) This is 24/7 surveillance and harassment. It continues until the death of the target in virtually all cases. It canNOT be stopped by moving, as the citizen vigilante gangs are totally networked and coordinated.

The book, [Terrorist Stalking in America](#), by David Lawson, describes these vigilante stalking gangs very accurately.

A survey of 12,000 North Americans in April 2002 suggested that a possible one percent (3 million) people have been brought under this silent, covert program of oppression and ruination of life. Our experience is that it can take time, in some cases years, before the targets of this program realize it is more than just "bad luck", because the harassment is designed so as to appear to be "life's normal breaks", and not attract attention from police.

At one person in a hundred, everyone knows someone who is targeted, even if that targeted person is as yet unaware.

Today's vigilante gang stalking is the current-day version of what used to be FBI-style [COINTELPRO](#) crimes.

Current day social control harassment programs are made possible by the ability to recruit people who are willing to inflict pain on others, well documented by looking up the famous [Milgram experiments](#). Recruits are told vicious LIES about the target, giving the recruit the false impression that they are doing "good work" for their community.

For those who are unable to believe that large scale human rights atrocities can occur in "democratic countries" yet not appear in the media, consider the outrageous, current-day [epidemic of pedophilia](#). Cover is provided by pedophiles occupying positions high up on the authority scale, who lead double lives, and make sure the issue stays out of public view.

The public is familiar with the harassment of government and corporate whistleblowers, but what is unique about today is that people who are not important in any way are receiving the same treatment, often for relatively minor reasons, and often for unknown reasons as well. Can this be a case where the covert harassment "army" is being recruited and trained and kept proficient by harassing people who have no criminal record?

The main techniques used by these "social controllers," who oversee the vigilante gang stalking and electronic harassment, are reportedly:

- Hypnosis, transmitted silently, by [electronic](#) means, targeting both the victim and people associated with the victim; a slight "ringing in the ears" is one indication this is happening
- Official "investigations" which don't ever seem to end, and with no defined purpose, and where the harassment target is unaware of the investigation
- Rumours of illegal and immoral behavior spread about the harassment target among neighbours, co-workers, and even some family members
- ["Street theater" and neighbor "skits"](#) designed (very cleverly) to keep the harassment target uncomfortable and isolated for years; often, whenever target moves, new neighbors are moved in soon after (performed by grossly misinformed [local vigilantes](#))
- [Sabotage](#) of personal possessions and work at the target's home, place of employment, and locked automobile

An anonymous letter from someone claiming to be a PERPETRATOR in this covert program stated that he was recruited by being told he was participating in "criminal rehabilitation", in spite of the fact that overwhelmingly, victims of this program do not have criminal records. (And those who have, have paid their debt and are no longer active as criminals.)

Cover is being provided by official denial and ridicule, and psychiatrists assist, often claiming they are unaware of even the well-known [MKULTRA](#) atrocities. Once designated as a target, CONTROL is exercised over these facets of the harassment target's life:

- who your friends are, and in many cases whether you will have any friends at all
- how your relations with family will go
- how your relationships with business associates go
- what sort of jobs you will be allowed to hold, regardless of your qualifications, and for how long, and what the quality of your work will be
- how your health will fare, and in many cases if you will even be allowed good health
- whether or not you will be able to enjoy any of life's pleasures
- whether or not you will have any privacy at all
- how well you will be treated in stores and other places of public service
- how well your possessions will work and how long they will work without breakdowns
- how much sleep you will be allowed
- how long you, your children, and your pets will have between occurrences of bodily pain, fatigue, sleep deprivation

If you feel that citizens deserve to control the above areas of their own lives, and that the covert citizen vigilantes should be exposed and brought to justice, please stay a while and read the materials on this site.
