Application no. 61626/00.
BARANOVY against Russia.

Dear Sir or Madam,

We have read with surprise your letters of 03 and 05 December 2001, because we believed that the legal part was finished. However, using the given opportunity we decided to inform you that on 20 October 2001 we were granted political asylum in the United Kingdom under the 1951 United Nations Convention. Thus, we received the legal recognition of all the facts that we stated.

Historically, we do not know the similar examples, when the family of three, personally, and in the different countries received political asylum. This acknowledgement from the two Great States - The United States of America and the United Kingdom confirms the sense of rightness of our cause. And now we started calmly to publish the documents of our case on the Internet: www.Baranovfamily.org, "Strasbourg Case".

In conclusion, we are forced to ascertain that demonstratively ignoring our case, the Court has withdrawn itself from the solution of the tasks layed on it, thus signing its own insolvency.

With best wishes,

Tatiana A. BARANOVA,
Candidate of Chemical
Sciences.
